

National MPS Society

Raleigh Run for Rare MPS 5K

Raleigh, NC
March 28, 2020
www.mpsrunnc.com

Please join the National MPS Society as we raise money to support MPS & ML research.

HELP US FIND A CURE!!! These pictured individuals and others like them are diagnosed with MPS and ML. These diseases are genetic lysosomal storage diseases (LSD) caused by the body's inability to process waste properly due to enzyme deficiency. Normally, the body uses enzymes to break down and recycle materials in cells. In individuals with MPS and ML, the missing or insufficient enzyme prevents the proper recycling process, resulting in the storage of materials in virtually every cell of the body. As a result, cells do not perform properly and may cause progressive damage throughout the body, including the heart, bones, joints, respiratory system and central nervous system.

While the disease may not be apparent at birth, signs and symptoms develop with age as more cells become damaged by the accumulation of cell materials. There is an estimate in the United States that 1 in 500,000 births will result in some form of ML and 1:25,000 births result in MPS. At the present time, there is no cure for this deadly disease; however, promising treatments and therapies are just around the corner. Money is needed to continue fund research to find a cure for MPS and ML.

The National MPS Society is a non-profit organization dedicated to improving the lives of children and families who are impacted by these genetic diseases and to help fund research for a cure. The Society is hosting a series of 5K Run/Walks across the country to raise money for research.

We are hosting the **Raleigh Run for Rare 5K** at Dorothea Dix Park in Raleigh, NC on March 28, 2020. For more information on this event please visit www.mpsrunnc.com.

Please join us to raise money for research and to spread awareness of these devastating diseases.

With Sincere Gratitude,
The National MPS Society
